It takes a community to make  
an impact on youth mental health.

## **OUR MISSION**

PrairieCare Fund's mission is to support mental health initiatives in education through grants & advocacy. PrairieCare Fund, which launched in March of 2016, awarded \$185,000 in grant funding to TEN Minnesota school districts & non-profits to support mental health education and training to those who support or provide educational services to youth. Since 2016, a total of \$545,000 has been awarded to TWENTY-SEVEN school districts throughout the state!

## **YOUR SUPPORT**

We ask you to make an impact on mental health by sponsoring at the 8th Annual Fancy Pants Golf Tournament. The Fancy Pants Golf Tournament is a truly remarkable event which will feature on-course personal stories telling the impact the granted funds have made in the lives of educators, students, families and our communities! This year's tournament will also feature exclusive auction items, raffles, games, fabulous on-course food, food trucks & live entertainment. On top of that, we will have a Fancy Pants contest, so there is something in it for the Chevy Chase in all of you! Mental illness touches ALL of us. Since March of last year, 1 in 2 of us are at risk for developing a mental illness. We need your help to provide mental health education, prevent suicides, and reduce stigmas in schools across the state.

## **TOGETHER, OUR IMPACT**

By coming together, as a community to foster mental health, we can accomplish our goal to raise \$75,000 at the Fancy Pants Golf Tournament. In order to meet this goal, we need your support!

## ABOUT US!

PrairieCare Fund supports youth mental health and wellness programs throughout the state of Minnesota. Our generous grants advocate, prevent, identify and reduce the stigma of mental health through programs and education.

PrairieCare Fund surpassed a milestone in 2020, granting over \$500,000 to 27 schools across the state since 2017! These funds are being used to raise mental health awareness, provide early identification, suicide prevention and stigma reduction.
